dispatch reports only four deaths, and none of them from yellow fever, from among the hundreds of cases of fever known to exist in the camp, the war authorities are more than ever inclined to the belief that the cases of yellow fever are of a mild type.

#### INDIANA INJURED.

NEW YORK, July 19,-A dispatch from Washington to the Herald says: During the naval operations against Santiago the only ships which sustained damages were the Brooklyn and the battle ship were the Brooklyn and the battle ship Indiana. Rear Admiral Sampson has made an official report to the Navy Department regarding the injury done to the latter vessel by a shell fired from a Spanish mortar. The shell fell on the spar deck of the battle ship and exploited, destroying the ceiling and walls of several of the ward rooms occupied by officers, but no one was injured. Repairs to the vessel are being effected at Guantanamo by the engineer repair ship Vulcan and the ship's force.

#### SAMPSON FOR PORTO RICO.

WASHINGTON, July 21 .- President Mc Kinley this morning issued personal orders, through the Secretary of the Navy, that Admiral Sampson should proceed immediately to Porto Rico with General Miles. The President's orders are susceptible of no misconstruction. They are imperative to a degree seldom employed, except in cases of extreme emergincy. Thy are of the sort that will brook no delay in their execution. Admiral Sampson must start at once or the President will know the reason why. Kinley this morning issued personal ord-

# Capt. Baker Meets Death on the Big Ship.

Burned--Cargo of Sugar From Isl and of Hawaii -- In Sewall Line. The Master.

BATH (Me.), July 25 .- A cablegram was received by Arthur Sewall & Co. today from Valparaiso stating that their ship Kenilworth, bound from Hilo, Hawali, to New York, had been burned. The cable stated that Captain James G. Baker, First Officer Piper and a boy named Hobson had lost their lives. The Kenilworth was laden with sugar.

SAN FRANCISCO, July 26.—Captain Baker had been in command of ships for thirty years. He was born in the town of South Dennis, Cape Cod, about seventy years ago, and at an early age became a mariner. His first ship was the Asa Eldridge and in the ensuing year he was master for various periods of the ships Sterling, Henry Villard, John Rosenfeld, C. F. Sargent, Com-modore and finally of the craft on

which he perished.

The Kenilworth, a four-masted barkrigged craft, was ranked as one of the finest ships in the American steel sailing fleet. She was built in Scotland in 1887 and was of the following dimen-sions: Length 300 feet, breadth 43 feet, depth 24 feet. Her gross tonnage was 2,293, net 2,178. The ship was almost destroyed by fire in 1889 at Port Costa, where she was lying with the British ships Honauwar and Armedia. Advices as to the manner of the de-

struction of the ships are meager, the last thing being a private dispatch to D. R. Dearborn, New York agent, from Valparaiso, Chile, confirming the first report that the Kenilworth had put into that port in flames.

#### Notice to Ship Captains. U. S. Branch Hydrographic Office,

San Francisco, Cal. By communicating with the Branch Hydrographic Office in San Francisco, captains of vessels who will co-operate with the Hydrographic Office by recording the meterological observations suggested by the office, can have forwarded to them at any desired port, and free of expense, the monthly pilot charts of the North Pacific Ocean and the latest information regarding the dangers to navigation in the waters

which they frequent. Mariners are requested to report to the office dangers discovered, or any other information which can be utilized for correcting charts or sailing directions, or in the publication of the pilot charts of the North Pacific.

W. S. HUGHES. Lieutenant, United States Navy.

# Pilot Chart.

.

The Pilot Chart of the North Pacifie Ocean for this month has this ominous paragraph which may be interesting to some of the boys on the troop ships for Manila:

Typhoons may be expected during this month in the China seas, probably first appearing to the eastward or the northeastward of the Philippine Islands. A few typical typhoons have occurred during July in previous year
